

Competition aluminium pole vault standards

Ref : 14451

Catalogue Page : 19

DIMA

S P O R T

F.F.A. & I.A.A.F
compliant

IAAF certificate
n° E-99-0078

Strong, reliable and easy to use, this model is highly appreciated for competitions and training. Adjustable height from 1.70m to 6.45m

TECHNICITY :

Anodised oval extruded aluminium, training mechanism in moulded aluminium. Automatic locking system of the crossbar in the rail in order to avoid all inopportune move of the uprights

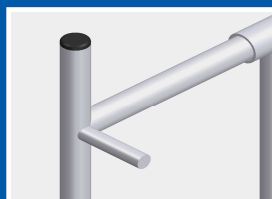

Dimensions : 6.7 x 0.2 x 0.20 m

Weight : 59 kg

Adjustment : from 1.70 to 6.45 m

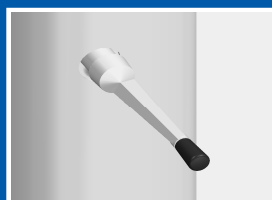

Aluminium bracket adjustable by butterfly screw

55 mm long compliant crossbar support

System allows for fine height reading adjustments on each standard independently. Training mechanism by steel measure system

Handles in moulded aluminium for raising or lowering the brackets

System to set a clearly defined height and store it in memory. Brackets locking thanks to an ergonomic knob

Screw on the top of the uprights to stretch the measuring tape

DimaSport also suggests :

- Foldable aluminium pole vault uprights
- Standard rails to be fitted with rolling base
- Vault box—galvanized
- Several types of foam protections
- Pole vaulting crossbar 4.50 m
